

3.6 Fire Safety Systems and Infrastructure

Policy Statement

There is no formal policy statement for this topic however procedures and other information are provided below.

Reason for policy

The following contact information is intended to provide information for individuals seeking information on fire safety related infrastructures and systems.

Forms/Instructions

There are a number of fire safety systems on campus including hood suppression systems, clean agent systems, and fire alarm systems. In addition to these systems, there is extensive fire safety related infrastructure including sprinkler systems and fire hydrants. If you have questions concerning any of these areas, please contact the UGA Office of Fire Safety at 706-542-5801
